ADRIÁN ARBOLEDAS AZAÑÓN

Flutter Developer · Mobile & Frontend Developer

arboledasadrian05@gmail.com | +34 647 985 945 | Barcelona, Spain (hybrid / remote)
Portfolio: arboledas05.github.io/adrianarboledas.github.io | github.com/arboledas05

PROFESSIONAL SUMMARY

Developer with hands-on production experience as a Flutter Developer at Accenture, where I built and maintained a digital-banking app used by real customers. Strong in Dart, state management (GetX), REST API integration and solving complex UX bugs on Android and iOS. I complement my mobile profile with modern frontend web development (JavaScript/TypeScript, React, Astro, Tailwind CSS, GSAP, Three.js) and several live production sites. Co-founder and CMO of Growlityc (B2B agency), where I learned automation, client acquisition and end-to-end client management. CFGS DAM education (Java, SQL, NoSQL). English C1. Looking for Mobile/Flutter or Frontend roles with growth potential, in Barcelona or remote.

PROFESSIONAL EXPERIENCE

Flutter Developer — Accenture

Barcelona · Sep 2025 – May 2026

- Developed and maintained end-to-end flows of a Flutter digital-banking app with real users in production, within an enterprise team.
- State management with GetX and REST API integration with the banking backend (authentication and error handling).
- Resolution of complex production UX bugs on Android and iOS.
- Agile/Scrum sprints with Git version control, code reviews and continuous delivery.

Co-founder & CMO — Growlityc

Barcelona · 2025 – Present

- Co-founded a B2B agency that installs patient-acquisition and retention systems for dental clinics; learned to own product and client end-to-end (tech, marketing and sales).
- Designed and built GoHighLevel automations (pipelines, workflows, reminders and reactivation) with applied AI.
- Client acquisition with Google Ads and Meta Ads, conversion funnels, analytics and ROI dashboards; built the website, brand and commercial strategy.

Web Developer — Own projects

Barcelona · 2025 – Present

- Designed and developed several live production sites with Astro, React, Tailwind CSS and TypeScript, multilingual and optimised for SEO, performance and conversion: servicempro.com, reformasmopri.com, elevvavisuals.com.
- Advanced web animation and interactivity with GSAP, Three.js and Lenis.

IT Technician (Internship) — PcBox

Barcelona · Feb 2024 – May 2024

- Diagnosis, maintenance and assembly of hardware, and installation of Windows/Linux operating systems.
